**ORGANIZER: Koelnmesse Italy**

**EXHIBITOR PROFILE:** hardware and furniture components, interior materials and components, machines for mattress and upholstery, textiles and upholstery, wood products, panels and laminates, adhesives, paints and other chemical materials, organisations, services and media.

**VISITORS:** furniture manufacturers, industry, specialised trade, architects, interior designers, contractors.

**interzum forum italy is a modern and innovative trade fair format with an exhibition area and a conference format.**

The event will be held for the first time on **6 and 7 June 2024 in Bergamo.**

Companies from the supply and furnishing industry will have the opportunity to participate in the exhibition through various participation options and to take part in the congress programme.

## the congress

A significant advantage of the interzum forum Italy will be its diverse conference program, which is designed to appeal to a wide range of participants in the furniture and design industry. This program is intended to attract the key players of the industry, including manufacturers of furnishing materials and technologies, planners, design studios, and interior designers.

In addition to the institutional talks, a **Trend and Product Stage** will be set up, where the tight schedules of **short B2B meetings** will be an opportunity to deepen into the topics of greatest interest and, for companies, to present their new product.

**Trends, new technical and technological solutions, new materials, digitalization** for production and services will be just some of the topics discussed and that will also characterize the **special event areas**.
